Government Forces, Insurgents Clash; Havana Power Cut

HAVANA (A)-President Fulgencio Batista's forces have admitted rebel apposition on three fronts. The government nabbed 35 plotters in central Cuba and claimed 16 casualties in the north-

A large part of the capital remained without electric power as a result of Tuesday's underground explosion, which blacked out much of havana's electric system. A secong blast went off Tuesday night near the home of Cabinet Minister Andrew Domingo Morales, but no damage was reported.

Batista issued a warning that all the dynamite his enemies could muster would not be enough "to interrupt our patriotic plans to assure the people their prog-'ess and their liberties."

Renew Drive Against Cuts

House GOP Leaders' Hopes Are Fading

WASHINGTON (P)-Defeated in their first test, House Republican leaders renewed today their drive to provide more money for de-

They pinned their fading hopes on a roll call vote expected later

The leaders set a limited goalto restore about 323 million dollars of the 2 billions tentatively cut from new defense funds by the House Appropriations Committee.

But they drew little solace from a test vote Tuesday which rejected their first move by a standing count of 145-113. It would have given the Army an extra 80 million dollars for maintenance and operation, restoring more than half of the 150 millions chopped off by the committee.

Only seven Democrats were amendment, while about 20 Republicans opposed it.

WHY DO YOU READ THE NEWSPAPER? COPYRIGHT 1957, BUREAU OF ADVERTISING OF THE AMERICAN NEWSPAPER PUBLISHERS ASSOCIATION, INC.

PHONE ED 7-3463

\$50 TO \$1000

Whether people want to "keep up-to-date" on world, national or local news, baseball scores or the latest styles in Bermuda shorts, the newspaper is the favorite medium - for adults and for teens.

It's the favorite because the newspaper has a wealth of reading for everybody. Newspapers serve almost all our 16,000,000 teens as well as the millions of adults who read daily newspapers. That's why daily newspaper circulation is highest ever - over 57,000,000.

Advertisers should find it profitable to turn their attention to the youth market. According to a recent survey made for newspapers by Eugene Gilbert & Co., famous youth authority, teen-agers spend over \$9,000,000,000 a year of their own money on a variety of products. They also have considerable influence on family spending.

No matter what you sell; no matter how you sell it - nationally, regionally or locally - you'll find more prospects of all ages in the daily newspaper. Use it to get the greatest coverage with most profitable return.

JP System On Way Out

Ohio Senate Votes To Replace Squires

By ART PARKS COLUMBUS, Ohio (A) - After next Jan. 1, the term "justice of the peace" will belong to history. After 170 years as a part of Ohio's judicial system, "JP" courts will pass out of the picture.

The Ohio Senate, 27-6, wrote the final chapter to the tumultous history of the justice of the peaceor squires'-courts Tuesday night on the next-to-last day of the 102nd General Assembly's regular ses-

Effective next Jan. 1, in counties which do not have municipal courts with countrywide jurisdiction, the 516 remaining JP courts will be replaced by new county courts created on the basis of population and need.

Some say the squires brought their destruction upon themselves. An unholy minority operated speed Columbus-1st add xgr c23 . . speed trap, with their constables and gouged an irate public. An indignant Legislature two years ago took the JP's off the fee system, only to be told by the Supreme Court a few weeks ago that the new law permitting county commissioners to set the squires' salaries was unconstitutional.

That decision, in the lawmakers' minds, made approval of the county court system a "must." Until the county courts can be estab-I shed next year, the justices of the peace who continue to serve will receive neither fees nor sal-

Funny Arithmetic

There is more to the doubt that cuts in the federal budget will leave permanent scars than garden-variety cynicism.

Misgivings about government operations that are quicker than the eye enter into the doubt too. The federal budget, although frequently compared with the family budget, is different from family income and outgo in one important respect. It is not absolute. It can be changed at will.

Besides deficiency bills and supplemental appropriations bills, which restore sums of money cut out of the budget to prove the success of economy drives, there are postponed expenses and the carryover.

A postponed expense is one that is going to be made eventually but can be put off another year or so until an economy drive peters out.

The carryover, or unexpended balance, is the sum left from previous budgets, representing money the spenders have not disbursed yet.

Sen. Byrd has pointed out that the Eisenhower administration's pared-down request of 3.9 billion dollars for foreign aid would be added to an unexpended balance of 6.2 billion left over from previous appropriations. Thus, the total available beginning July 1 would be 10.1 billion dollars.

Moreover, the administration has asked for authority to start a new category of spending that would commit the United States to spend 1.5 billion dollars in future years.

These are the budget gimmicks that make it impossible to know what is being done with federal money. The only way to know how much has been saved in an economy campaign is to make a recapitulation years later. The government makes no attempt to do that.

In the meantime, not everybody talking about budget-cutting is intending to inflict permanent

Taxpayers Know Best

Before congressmen take seriously the new political line that taxpayers do not know what is good for them and therefore should quit squawking about a proposed budget of nearly 72 billion dollars, they should look at two pieces of statistical information.

First is the new consumer price index of 119.3, which shows it now is costing twice as much to buy the same things as it cost in 1939. This index has been going up month by month; it is the index of inflation.

Second is a table prepared by Tax foundation Inc., which shows that it takes an income of \$7,179 this year to match an income of \$4,000 in 1946.

This is because of tax rates and inflation combined, which is the only sensible way to think of them because they belong together. They cause each other.

· Inflation. is a form of taxation that falls with special weight on people at the low and middle-income levels - the same place where federal taxation, itself, is heaviest. This cannot be avoided because the progressive income tax must draw the bulk of its revenue from the place where the bulk of the earning is done. If all income over \$10,000 were confiscated 100 per cent, it would amount to only four billions -a mere 5 per cent of the proposed budget.

Taxpayers may not know what is good for them, but they know what is bad for themthe endless bleeding of their purchasing power by exorbitant taxation and inflation, which are two sides of the same coin. That is why they want the budget cut down.

All Gassed Up

Frequent references to the fact World War II was fought without gas, which had been feared as deeply before war began as nuclear fission and fusion are feared now, have led to a popular miseonception.

The misconception is that gas was not used because it had been outlawed and that this apparent success through previous agreement shows how nuclear warfare can be outlawed,

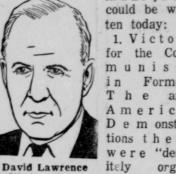

The facts of World War II are to the contrary. Every major combatant was prepared to use gas. In 1925, a Geneva Poison Gas Protocal had been signed by Britain, France, Germany and Italy, but it was not taken seriously. The British Royal Air Force systematically worked over German chemical plants where poison gas was being manufactured. Gas had been used in the Spanish civil war and in Italy's lopsided conquest of Ethiopia. Japan was accused repeatedly of using it against the Chinese, and the Japanese accused the United States of using it on Bataan and in the

There was no outlawing of poison gas, except by fear of retaliation and by general public opinion. If any of the major combatants had resorted to its use in any overt way, poisongas warfare would have broken out everywhere. All of them were well supplied and morally prepared to resort to what was the most feared of all weapons, until the United States revealed it had learned how to make the A-bomb. of bank loans and investments has of love. - Walter Savage Landor.

Our Readers Display the American Flag

To The News: Will Salem be a city of flags on Memorial Day, May 30; Flag Day, June 14, and Independence Day, July 4?

I hope so. Our flag is the symbol of patriotism and love for our country. Let's be good Americans in our patriotic community. Let's be thankful we live in a land of democracy. Let's deem it an honor and privilege to fly our beloved flag | Tulsa, Okla. of the United States of America. Let Freedom's Flag proudly fly! Mrs. Kenneth Stewart.

Khrushchev On 'Face The Nation'

("Nikita Khrushchev of Russia will appear on 'Face The Nation' June 2nd."-News Item)

2nd." - News item) Mr. Novins-Welcome, Mr. Khrushchev, to this program and we are glad to have you here.

Khrushchev-My answer is "No." Novins-No question has been asked yet. Khrushchev-The U.S.S.R. does not wait for a question to be asked before saying "No." Let's get on. I will go for twenty-one points.

Novins-This is not the Twenty-One Points program, I am sorry to say. Khrushchev-If you're sorry you can figure out how I feel. What program is this?

Novins-This is "Face the Nation."

Khrushchev-Very well, I choose famous summit conferences as my category, just for laughs. How much can I win in rubles?

Novins-This is not a quiz show. Khrushchev-I thought all American TV programs were quiz shows. You mean no matter how I do here, I can't get a years supply of toothpaste and a trip by airplane to Las Vegas!!!

Novins-That's right.

Khrushchev-This is another proof of an unfriendly attitude toward the U.S.S.R. The capitalistic interests do not even give me the same break they gave Charles Van Doren, Billy Pierson and Hank Bloomgarden. I demand the right to enter a sound booth.

Novins-You are still laboring under a misunderstanding. We have no sound booth.

Khrushchev-The whole world knows that all American TV shows have sound booths. The denial of one to a representative of the U.S.S.R. is another illustration of a plot to deny the Russian people the same opportunities allowed others. I have the same right to be asked who made the hit that broke up the 1956 world series as anybody else.

Novins-We have definite rules which must be followed.

Khrushchev-I veto them! Novins-You can't veto our rules. Khrushchev-When the U.S.S.R. can't veto anything anytime anywhere that's news.

Novins-May I make one more effort to set you straight on this program?

Khrushchev-No sound booths! No prizes! No ties and no chance to quit or come back next week! This is an act of aggression recognized by all peace-loving peoples as a step to threaten international peace, block the aspirations of the Soviet Union and bring on another world war.

Novins-I don't wish to create a world crisis. In a desire to ease tension would you consider being excused from this program and switched to a "western"?

Khrushchev walking out - You offer a "western" when I am up to my neck in a Mid-Eastern!!!

THE MAN WHO CHARGES Hank Bauer, Yankee baseball star, with slugging him is a delicatessen dealer. He insists his story is no baloney.

Jim English, succeeding Dave Beck as a veep of the AFL-CIO, says, "We are going to wash our own dirty linen." But will Beck cry. "No soap!"?

Although the free world insists that Egypt has not complied at all with the six requirements for Suez operations laid down by the United Nations, the organization takes no action and will merely hope Nasser will comply. ... This looks like the "Wanna bet?" of the

The jet cost \$640,000 and had every known modern instrument and device. Lindy's plane cost \$25,000 and had almost nothing aboard by way of instruments except a compass and an altitude gauge.

Off Into Space: Top Hat And Two Tails (3)

Satellites May Learn Exact Shape Of Earth And Its Mass Composition to the Memorial Day parade has been announced by Mrs. James Minamyer service chairman

(Editor's Note: Far out into space, satellites will try to learn many things about our universe that previously have been denied to scientists with land-locked telescopes. This third and last of a series tells about one ball which will wear a hat and trail a train, trying to increase our knowledge of our world).

By ALTON L. BLAKESLEE

Associated Press Science Reporter WASHINGTON (A) - One of the artificial moons speeding through space will wear a little hat.

And for a time it will be a threecar space train - composed of the satellite ball, a big inflated balloon, and part of the rocket that shoots it up. They'll whiz by, onetwo-three, in the same orbit.

Such is the plan, coming along well, for the third group of experiments with man-made moons. Like all others, this moon will

be round and shining. But it will contain a magnetometer, a device to measure magnetic currents. Part of the equipment will stick up out of the top like a round pipe, resembling a hat.

When this moon separates from its rocket, a plastic balloon wrapped around the connecting stem will be released, and be inflated by a little cylinder of gas. The balloon - 2 1/2 feet widewill became another satellite. This will probe the secret of

how much air or gas there is in Space is not quite a vacuum. Scientists believe there's so little air that each molecule of gas travels 12½ miles before bumping into the amount and motion of clouds one lock nut .028 pounds....a spacanother molecule. Each one of the little moons will Research Laboratory.

sphere. Variations in its pull of weighed. Ball shell 4.80 pounds.... of Cleveland. gravity, due to differences in its mass, will affect the orbits of the satellites. By special computations, much can be learned about the shape of the earth, relative position of land masses, and even the composition of the earth's crust.

Once the orbit of a moon is known, scientists can take sightings on it and more nearly pinpoint the exact location of any spot on earth. Right now, distances between continents, or points at opposite sides of our globe, are in error by a number of feet.

In a main task, the moon with a hat will report new data about the deep mystery of magnetism. Great magnetic currents appear to exist out in space. Are they really there? And what causes variations in the earth's magnetic field? What's the significance? This moon can get answers, will have batteries to radio reports for 50

Projects being considered for later moons could produce vital information concerning weath er and climate. One moon could plot

Pinch-Hit Home Run Wins Game For Cleveland Indians 4-3

Robinson Slams Round-Tripper

Tigers Were Leading In 9th Frame 3-2

CHICAGO (A)—The injury-riddled Cleveland Indians limped into town today for ar important threegame series with the league-leading Chicago White Sox.

Boasting the best pitching staff in the major leagues at the season's start, the Indians are now relying on reliefers, rookies and Early Wynn.

Wynn is the lone survivor of the Indians' big four. Herb Score is convalescing at Hagerstown, Md., from a severe eye injury caused by a batted ball. Bob Lemon is in Long Beach, Cal., nursing a pulled thigh muscle and Mike Garcia is having trouble with a sore back.

In dire need of another pitcher, Farrell has considered dropping someone from the team so a hurler could be recalled from San Diego.

Wynn opens the series with Chicago today. The first game of tomorrow's double header will be pitched by Bud Daley, brought up from the West Coast after Score's injury. Dick Tomanek, promoted from the bullpen during the pitching crisis, will hurl the nightcap.

The White Sox will send Dick Donovan to the mound today. Billy Pierce and Jack Harshman have been nominated to pitch the doubleheader.

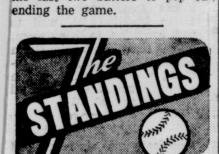

The hard-pressed Indians got help from an unexpected quarter Tuesday to defeat the Detroit Tigers 4-3 at Briggs Stadium.

A former Indian now playing third base for the Tigers, Ray Boone, bobbled a ground ball by Chico Carrasquel, allowing him to reach first safely in the ninth inning.

Trailing Detroit 3-2, Farrell debinch hit for Jim Hegan.

Robinson, only recently given tons. is unconditional release by the igers, greeted Billy Hoeft with two-run homer into the lower ight field stands. Hoeft was the

Turns work into carefree fun! Let the Wheel-Horse RIDE-AWAY do the work while you just sit and steer! 3-gang mower cuts 5 ft. swath. 30° lawnsweep whisks lawns clean. In winter, clear driveways of heavy snow in a jiffy. Haul compost—plow—cultivate—use any of 22 attachments. The RIDE-AWAY has 5 forward speeds—and a reverse! Powered by husky 3½ hp. (or 2½ hp.) engine on heavy channel steel chassis.
